QUALITY ASSURANCE MANAGER RECOMMENDATION

Approved - All aspects reviewed are acceptable

X Approved with minor revisions -

This work needs minor corrections, but does not require additional QA review. The PI/PO should respond to each QA review comment and return the response write-up or a corrected version of text to the QA office.

Not Approved revisions required -

This work contains major errors or there are QA findings that require major re-writes. An additional QA review of the corrected text is required, along with the PI/PO's written response to each QA comment.

QA requirements are not applicable

Comments

The QA Project Plan is acceptable with minor revisions. See attached memorandum. Please forward the
Please forward the electronic file for the revised QAPP along with your responses to review comments to
Additional QA review is not required. ■ ■ ■ ■ Note: Libby Nessely replaces Paul Groff as APPCD QA Manager
